

TECHNICAL DATA SHEET

HIGH & MIGHTY is:

- A single coat finish designed for resilient floors such as VCT, linoleum, sheet vinyl and more.
- An ultra-durable alternative to traditional “wax-type” finishes.
- A foundation that is highly chemical and abrasion resistant.
- A procedure that presents dramatic labor savings to its users and is very easy to maintain.
- A non-yellowing product that eliminates the need for routine burnishing and stripping.
- An environmentally-friendly solution that may help facilities attain multiple LEED points.

PRODUCT BENEFITS OVERVIEW:

- High Gloss, Satin & Matte Available
- Abrasion Resistant
- 2 hour pot life
- Very low odor
- Low VOC's
- Very Slip Resistant
- Grit additives available
- Extremely chemical resistant
- Roller Application
- Water Clean-Up
- VOC Compliant in California

PHYSICAL PROPERTIES:

Gloss	90-95° @ 60° angle – ASTM Standard
Weight per Gallon	8.65 lb. ± 0.2 lb. per gallon
% Non-Volatile	35.5% ± 1%
Viscosity	Part A Only; 72-80 KU @ 77° F
Hardness	4H
Dry to Touch	2 – 2.5 hours @ 77° F, 50% R.H.
Dry to Walk On	4.5 hours @ 77° F, 50% R.H.
Pot-Life	2 hours approximately
VOC's	Less than 210 g/l, catalyzed Part A & B, and water reduction, as specified
Slip Resistance	0.64 Universal Slip Tester - Exceeds OSHA & ADA requirements
